## Scenario Worksheet

## Practice and Scenario Description:

Fractice and Scenario Descripti	on.
Information Type	Data
Region	New England
State	Connecticut
Discipline Group	Agronomy
Practice Code/Name	331 - Contour Orchard and Other Perennial Crops
Scenario ID	1
Scenario Name	Contour Orchard or Vineyard
	This scenario meets the specifications of the NRCS 331 Contour Orchards and Perennial Crops Standard. This scenario applies to fields greater than 5 acres. Paymen
	reflects the extra labor and initial supervision costs in implementing and following contour operations compared to other methods. More time is usually needed
	when following contour operations due to more equipment time in shorter rows and more equipment turning. Annual erosion rates for the rotation exceeds
Scenario Description	tolerance levels. Excessive runoff leads to sedimentation of waterways.
	The typical field size in this geographical region for this scenario is 10 acres. The field slope averages 6% while the slope length averages 160 feet. All farming
	operations are performed up and down the slope. Annual erosion rates for the rotation exceeds tolerance levels. Excessive runoff leads to sedimentation of
Before Practice Situation	waterways.
	This practice is installed on the entire field. A survey is completed by trained and certified Federal, State, local personnel or consultant to determine and "stake"
	contour row arrangement. All field operations including: harvesting, disking, bedding, and planting are performed on the contour which is near perpendicular to the
	field slope. The farm manager is initially on site to ensure that equipment operator is properly following contour methods. Soil erosion rates are reduced to tolerable
After Practice Situation	soil loss levels. Likewise, sedimentation has be significantly reduced.
Scenario Feature Measure	acre
Scenario Unit	Acre
Scenario Typical Size	10

## Cost Summary:

,		
Cost Category	Scenario Cost	Scenario Cost/Unit
Materials	\$0.00	\$0.00
Equipment/Installation	\$26.51	\$2.65
Labor	\$244.54	\$24.45
Mobilization	\$0.00	\$0.00
Acquisition of Technical Knowledge	\$0.00	\$0.00
Foregone Income	\$0.00	\$0.00
Total	\$271.05	\$27.11

## Cost Details:

Cost Category	Component ID	Component Name	Component Description	Unit	Price (\$/unit)	Quantity	Cost
Equipment/Installation	939		Equipment and power unit costs. Labor not included.	Hour	\$26.51		\$26.51
Labor	232		Includes: Skid Steer Loaders, Hydraulic Excavators <50 HP, Trenchers <12", Ag Equipment <150 HP, Pickup Trucks, Forklifts, Mulchers	Hour	\$23.90	5	\$119.50
Labor			Labor involving supervision or management activities. Includes crew supervisors, foremen and farm/ranch managers time required for		\$41.68		\$125.04
